

Tasks - ones with deadlines at the top, ordered by closest deadline

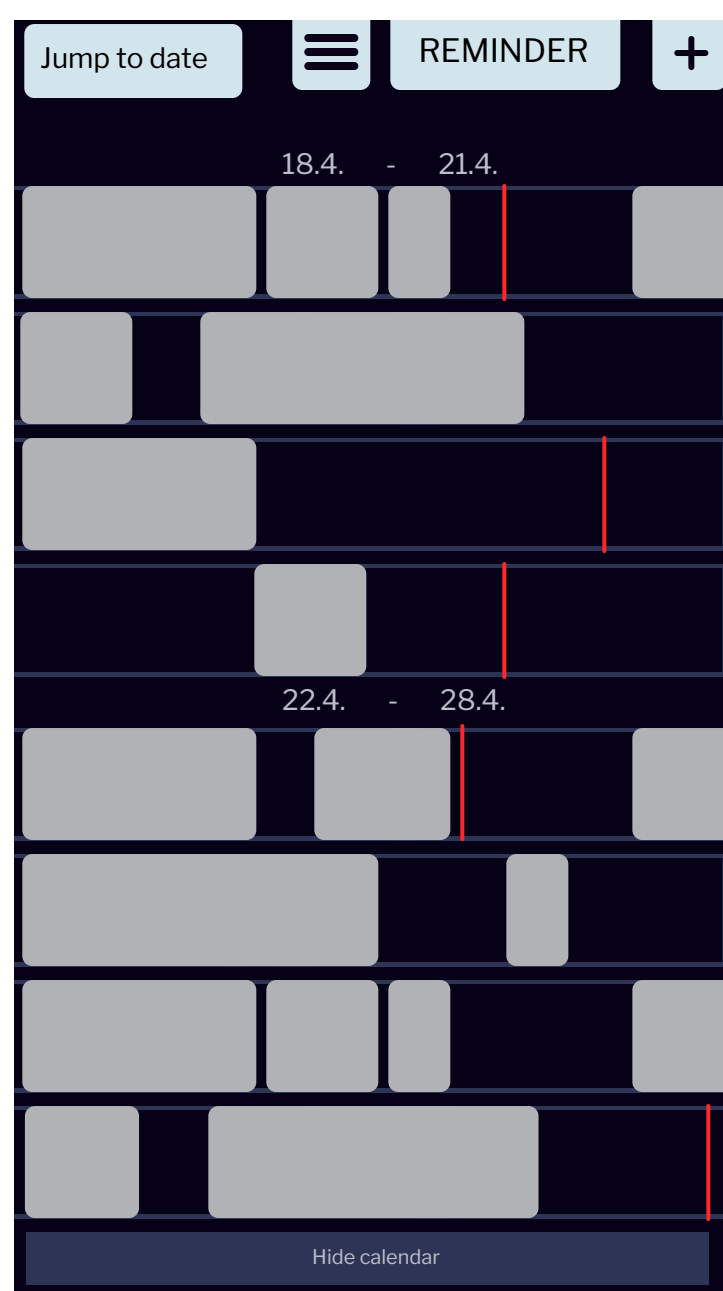

Can scroll within the Task and Thought spaces  
Tapping on the task box - mark as done

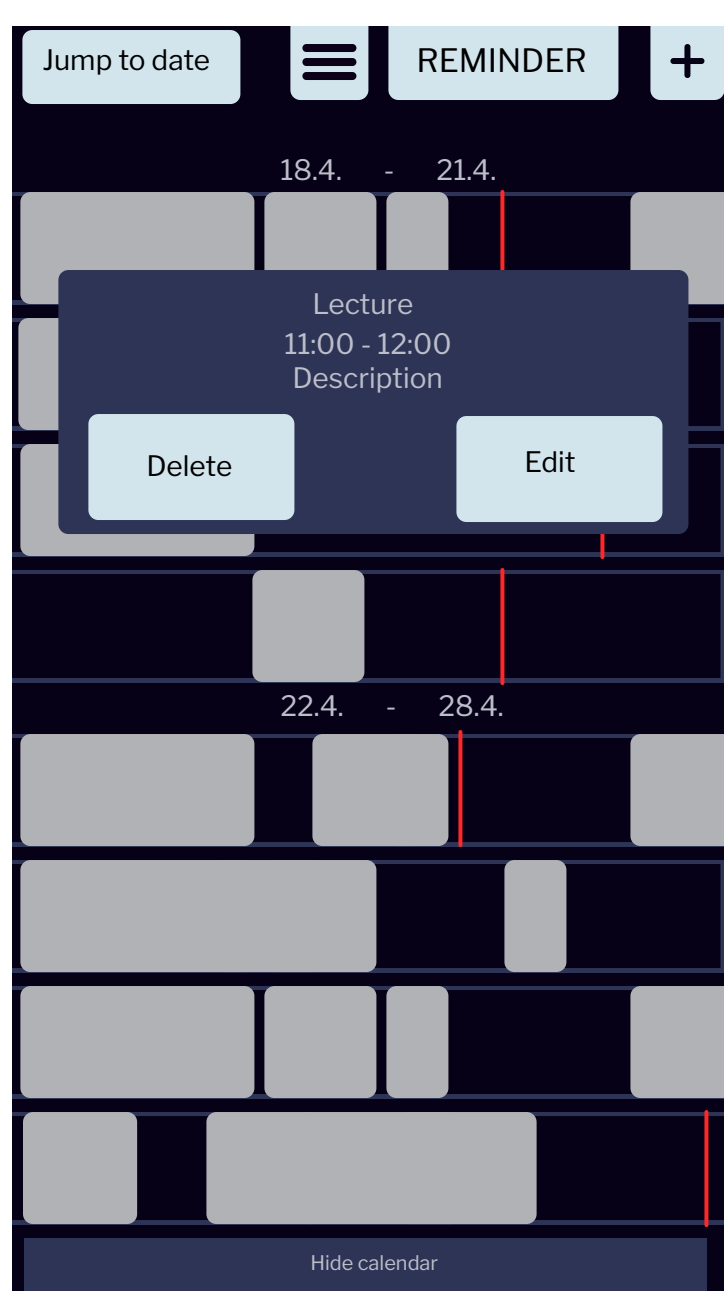

Tap elsewhere to minimize the thought

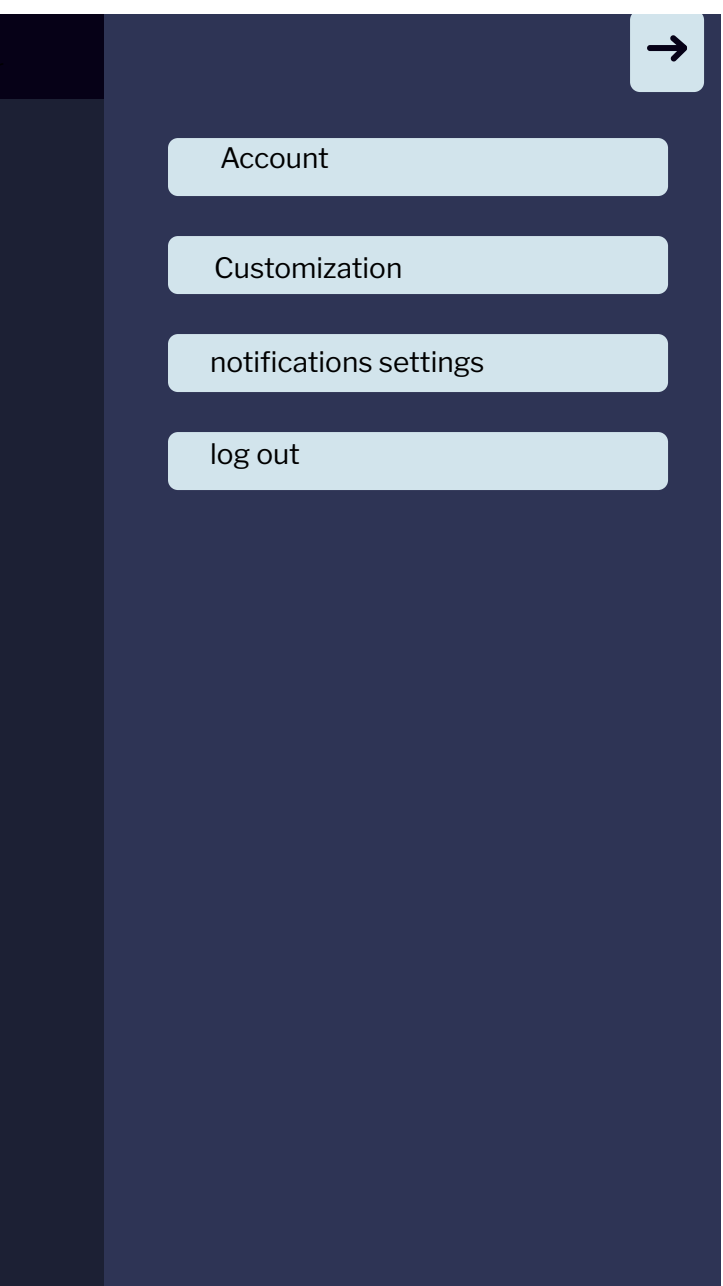

Tap elsewhere to minimize the task

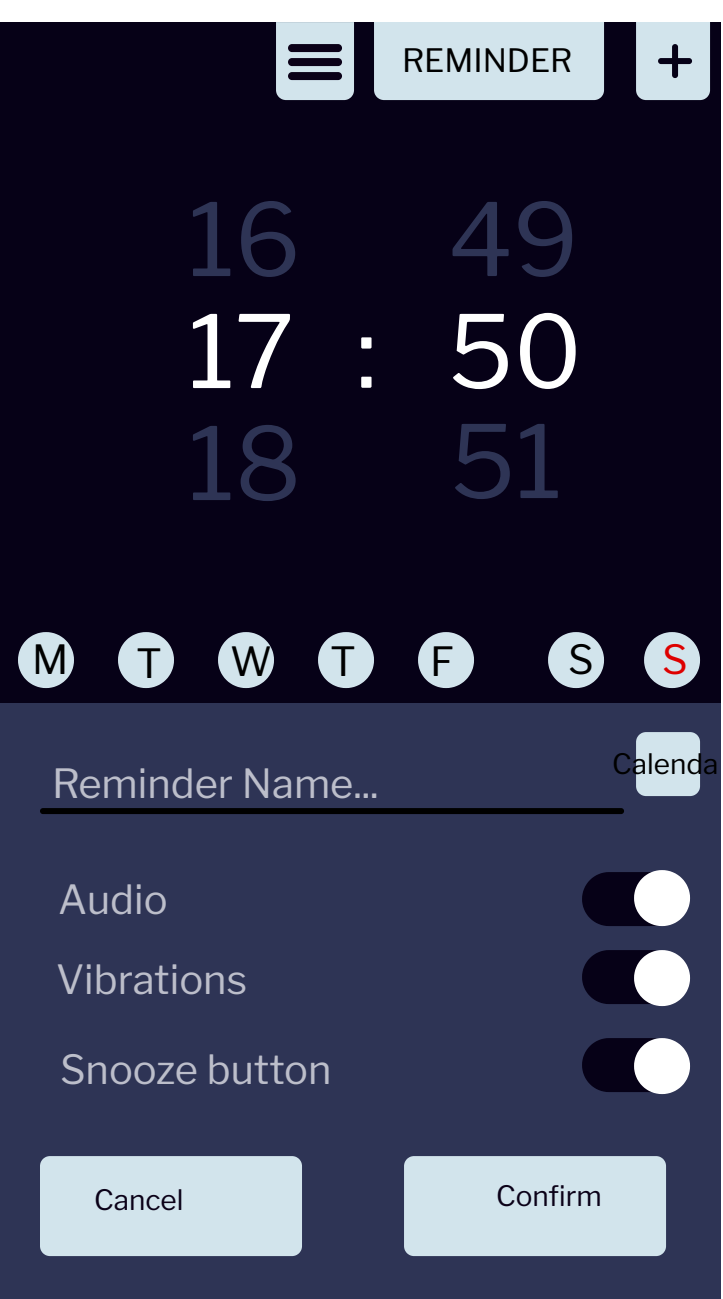

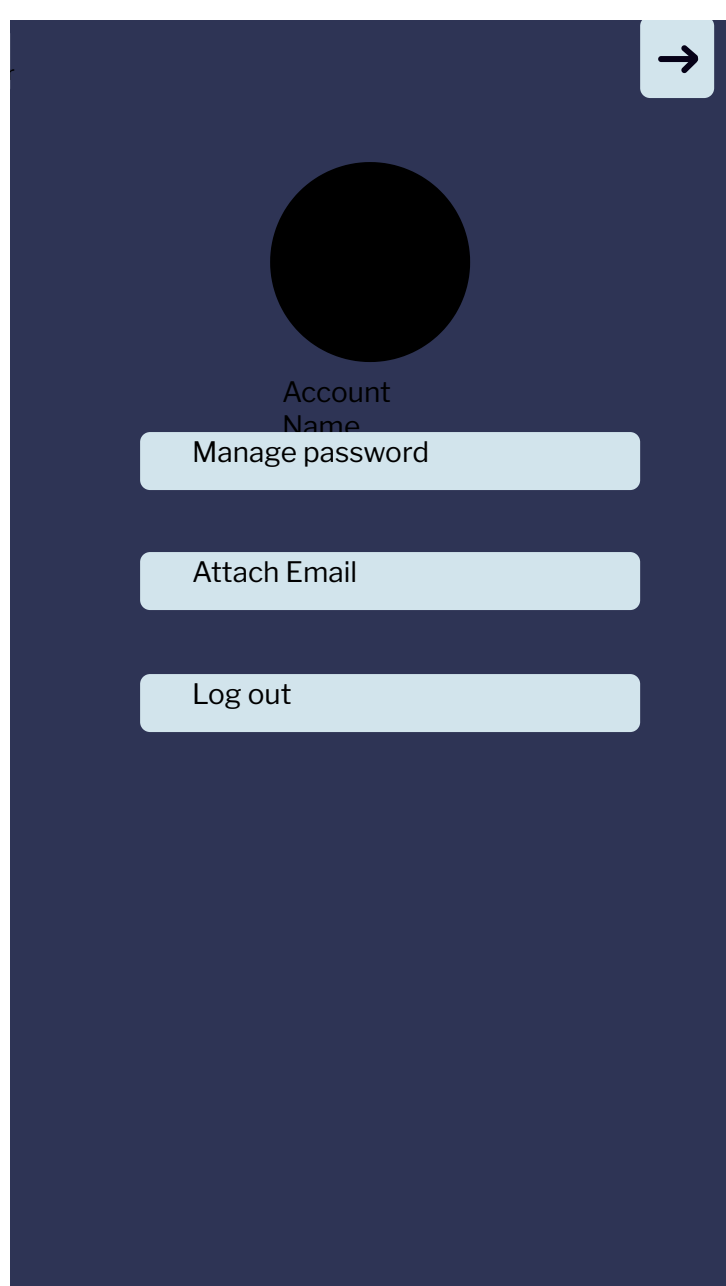

Scroll down to see more days

Tap elsewhere to minimize the time block

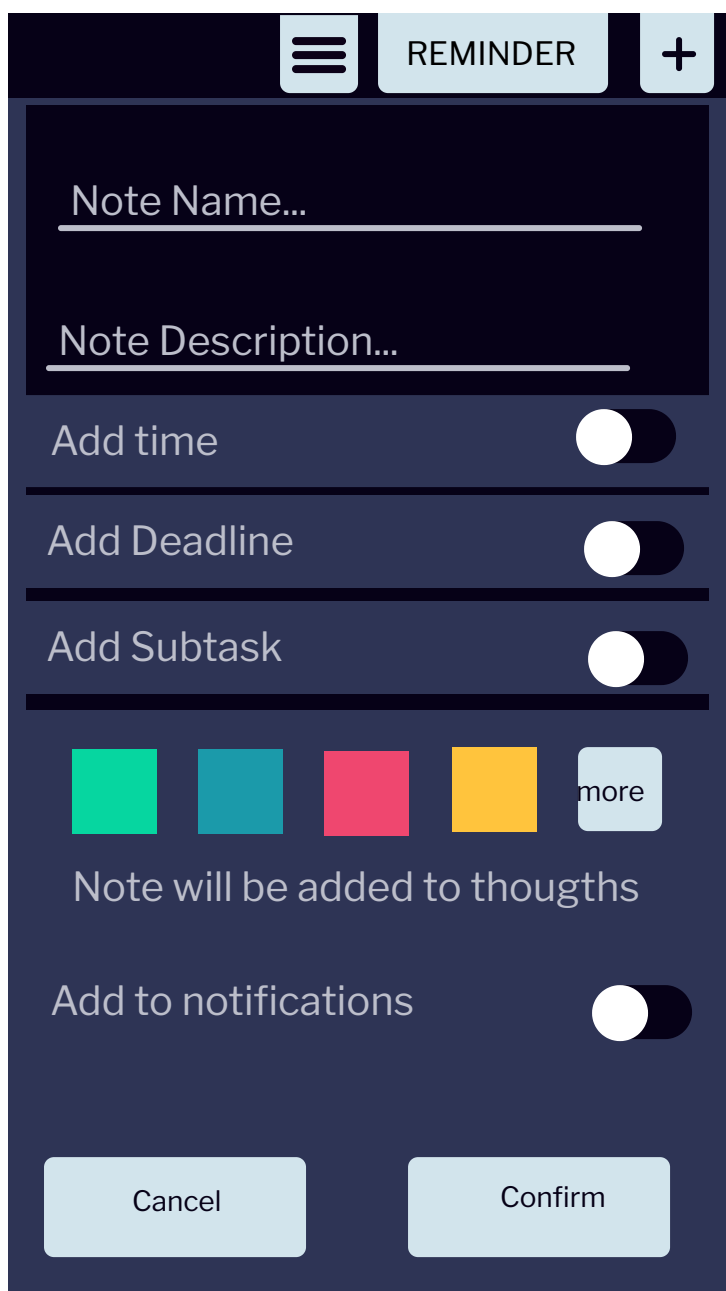

menu slides in from the right

Toggles for the days of the week -> set to remind every week

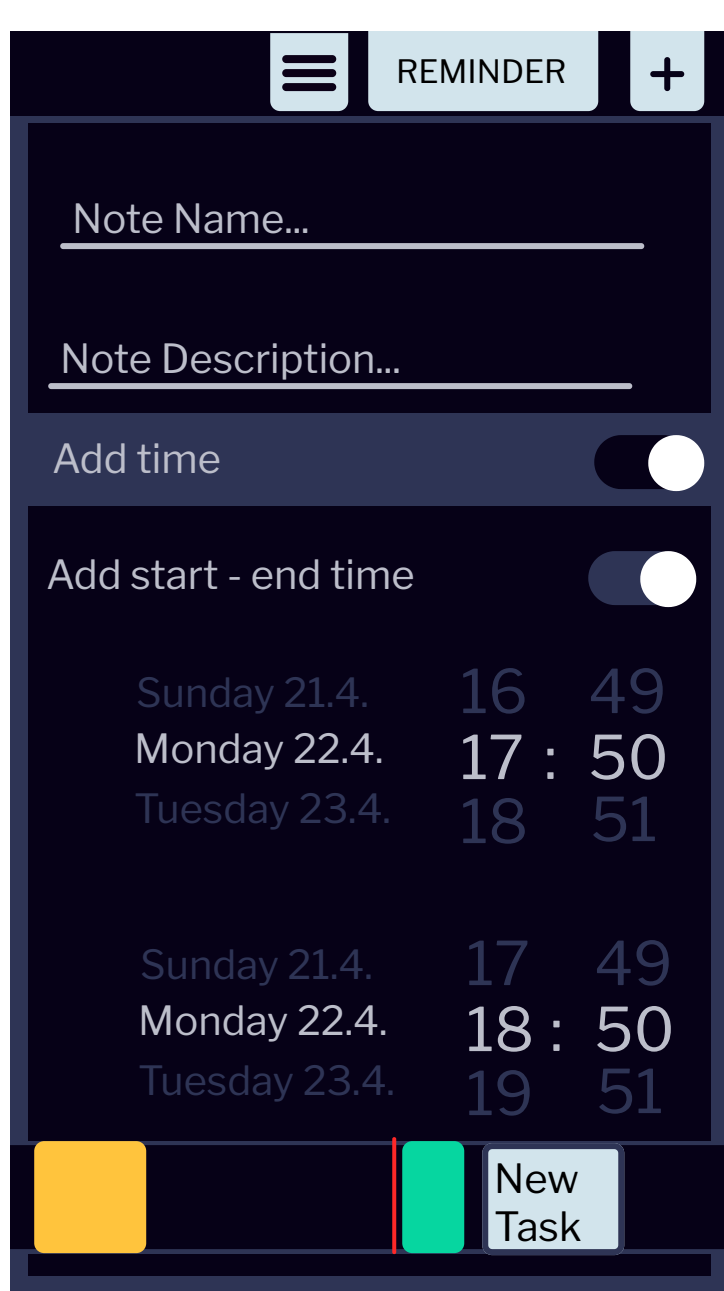

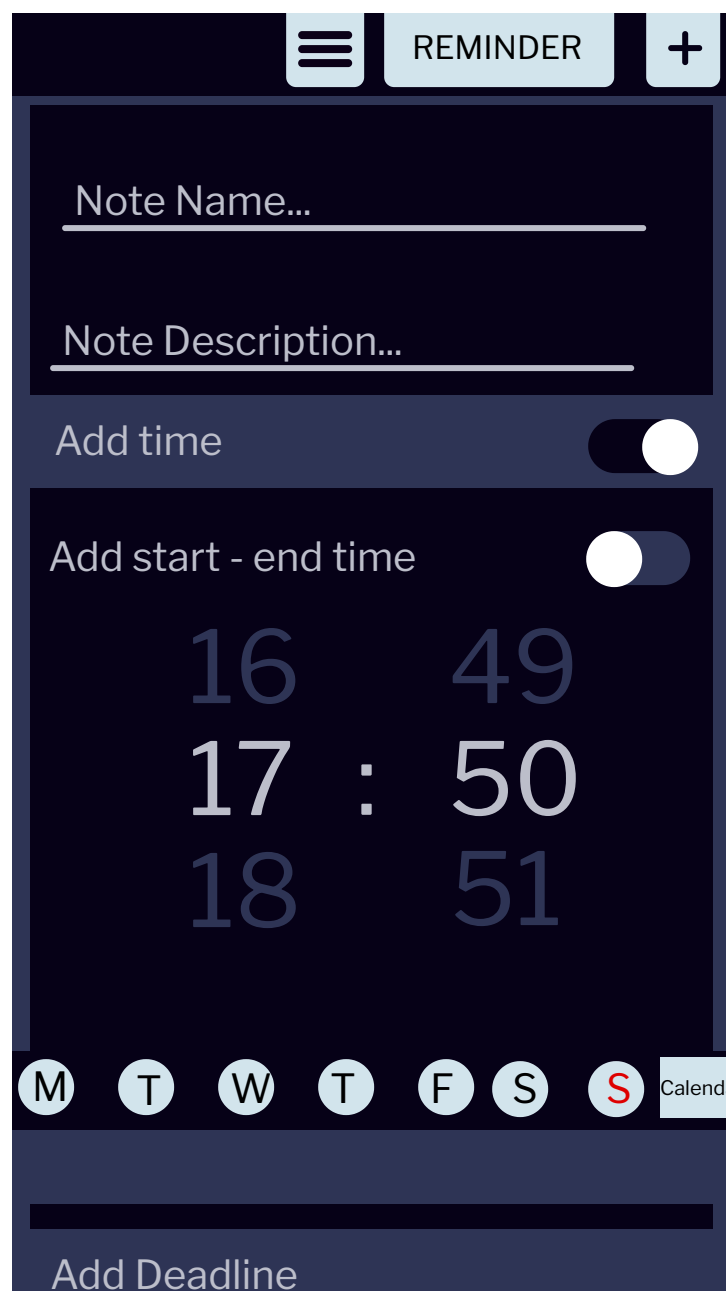

Calendar for a specific day, once off

Space for colours - up to 9 previously used + "more" button  
Text lets user know where the note will end up

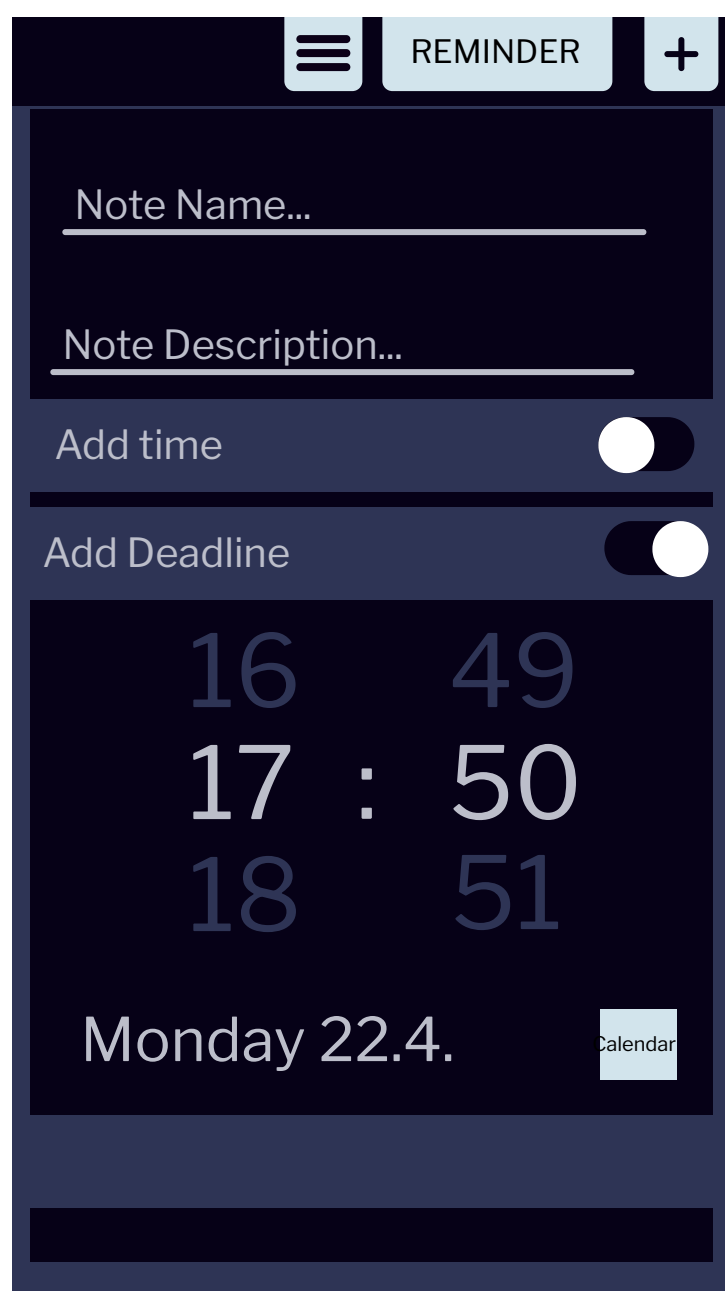

note specific setting  
Thoughts => add to random app notifis  
Calendar Time Blocks => set as free time

Same screen is used for both edit and Create. Edit shows

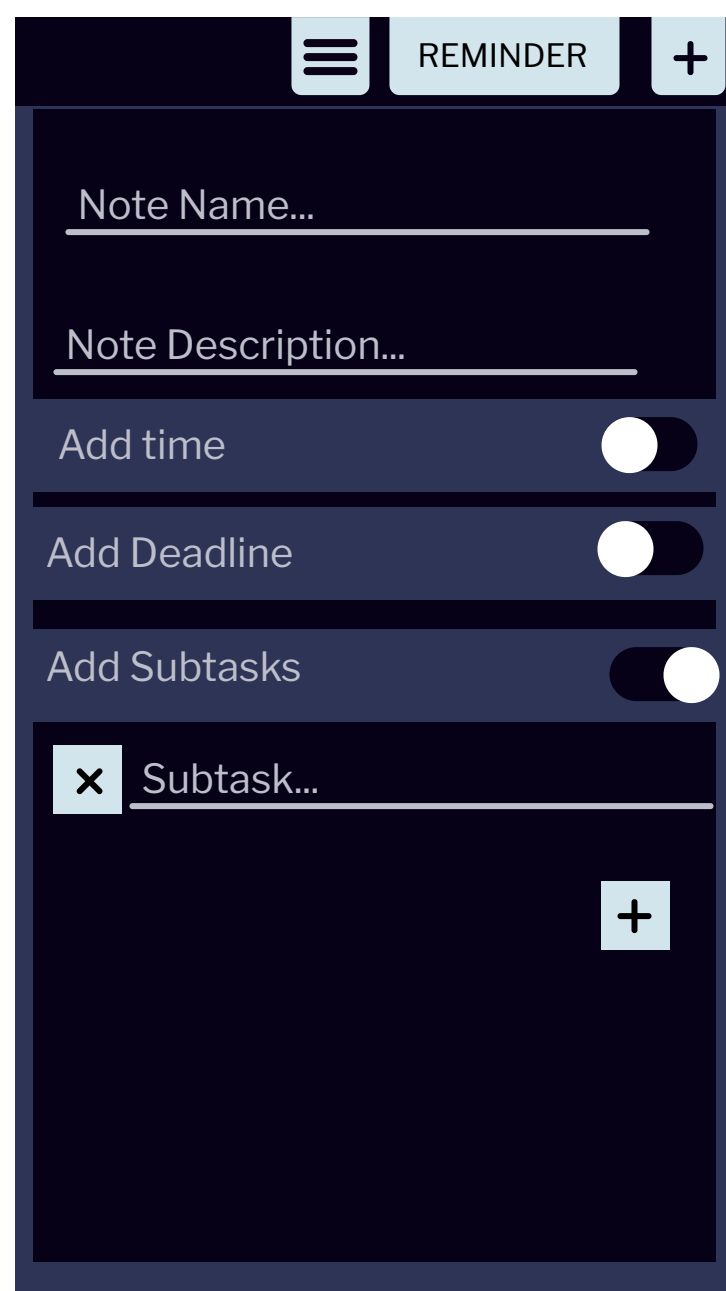

Dynamic selection - when changing the start time, end time automatically adjusts to be AT LEAST 1 hour after it.

Show how the new timeframe fits into the calendar

Avoid scroll selections - a deadline might be months away

Logic for sorting notes:  
start and end time - calendar block  
subtasks or deadline - tasks  
else - thoughts
